HUDSON RCI RESPIRATORY SOLUTIONS
Breathing, made easier.
As a leader in respiratory care for more than 65 years, Hudson RCI is dedicated to providing innovative products that solve some of the biggest challenges facing healthcare professionals. Our mission is to provide products that enable healthcare providers to improve outcomes and enhance patient and provider safety. We are committed to fulfilling this mission while delivering unparalleled customer support.

As a pioneer in the industry, Hudson RCI has introduced some of the most recognizable products to the respiratory community, including the prefilled large volume nebulizer, disposable small volume nebulizer, infant nasal CPAP prongs, and the original Swedish nose, commonly known as the heat and moisture exchanger (HME). Our portfolio includes a plethora of branded products used by healthcare professionals. Some of these products you have come to recognize and trust include ConchaTherm® Neptune® heated humidification systems, MICRO MIST® nebulizers, Gibeck® HMEs and filters, Voldyne® incentive spirometers, and LIFESAVER® resuscitation devices.

This catalog is designed as a reference tool to provide healthcare professionals with pertinent product information. Teleflex Customer Service can provide additional product information and contact information for your local sales representative. To place an order, please contact Teleflex Customer Service at 866.246.6990, or contact your local distributor.

OXYGEN THERAPY

OXYGEN MASKS

MEDIUM-CONCENTRATION MASKS

Adult
Item Code 1040
• Clear, soft vinyl for patient comfort and visual assessment
• Adjustable nose clip assures comfortable fit
• Complete with 7-ft oxygen supply tubing

Item Code 1048
• Same as Item Code 1040 but without tubing

Pediatric
Item Code 1035
• Same as Item Code 1040 but with a pediatric-sized mask

Individually packaged, 50 to a case.

MEDIUM-CONCENTRATION MASKS, ELONGATED

Adult
Item Code 1041
• Under-the-chin design for excellent fit on wide range of face sizes
• Clear, soft vinyl for patient comfort and visual assessment
• Adjustable nose clip assures comfortable fit
• Complete with 7-ft oxygen supply tubing

Item Code 1049
• Same as Item Code 1041 but without tubing

Item Code 1930
• Same as Item Code 1041 but with universal tubing connector
• Attaches directly onto the flowmeter, eliminating the need for an adaptor

Pediatric
Item Code 1042
• Same as Item Code 1041 but with a pediatric-sized mask

Item Code 1050
• Same as Item Code 1042 but without tubing

Individually packaged, 50 to a case.

HIGH-CONCENTRATION MASKS

Adult
Item Code 1009
• Clear, soft vinyl for patient comfort and visual assessment
• Adaptor swivels to accommodate patient position
• Adjustable nose clip assures comfortable fit
• 750-mL reservoir bag
• Complete with 7-ft oxygen supply tubing

Pediatric
Item Code 1000
• Same as Item Code 1009 but with a pediatric-sized mask

Individually packaged, 50 to a case.
HIGH-CONCENTRATION MASKS, ELONGATED

**Adult**

*Item Code 1007*
- Under-the-chin design for excellent fit on wide range of face sizes
- Clear, soft vinyl for patient comfort and visual assessment
- Adaptor swivels to accommodate patient position
- Adjustable nose clip assures comfortable fit

*750-mL reservoir bag*
*Complete with 7-ft oxygen supply tubing*

**Pediatric**

*Item Code 1011*
- Same as Item Code 1007 but with a pediatric-sized mask

*Individually packaged, 50 to a case.*

NONREBREATHING MASKS WITH SAFETY VENT

**Adult**

*Item Code 1059*
- Low-resistance check valve does not contain natural rubber latex, prevents rebreathing and allows exhaled gas to escape
- Safety vent allows for entrainment of room air
- Adjustable nose clip assures comfortable fit
- 750-mL reservoir bag
- Complete with 7-ft oxygen supply tubing

*Item Code 1935*
- Same as Item Code 1059 but with universal tubing connector
- Attaches directly onto the flowmeter, eliminating the need for an adaptor

**Pediatric**

*Item Code 1058*
- Same as Item Code 1059 but with a pediatric-sized mask

*Individually packaged, 50 to a case.*

NONREBREATHING MASKS

**Adult**

*Item Code 1060*
- Low-resistance check valve does not contain natural rubber latex, prevents rebreathing and allows exhaled gas to escape
- Adjustable nose clip assures comfortable fit
- 750-mL reservoir bag
- Complete with 7-ft oxygen supply tubing

*Item Code 1936*
- Same as Item Code 1060 but with universal tubing connector
- Attaches directly onto the flowmeter, eliminating the need for an adaptor

*Individually packaged, 50 to a case.*
THREE-IN-ONE MASKS

Adult

Item Code 1061
- 3-in-1 mask can be used as a medium-concentration, high-concentration or nonrebreathing mask
- Includes mask with flapper valve, nonrebreathing bag assembly, 7-ft oxygen supply tubing and oxygen connector
- Adjustable nose clip assures comfortable fit

Item Code 1937
- Same as Item code 1061 but with Star Lumen tubing

Individually packaged, 50 to a case.

INFANT OXYGEN MASKS

INFANT HIGH-CONCENTRATION MASK

Item Code 395406
- Consists of a soft vinyl face piece and an oxygen inlet with a barbed barrel that firmly grasps the oxygen line
- Wide elastic bands do not contain natural rubber latex and can be easily adjusted to fit a wide range of head sizes

Individually packaged, 50 to a case.

INFANT HIGH-CONCENTRATION MASK WITH 7-FT TUBING

Item Code 395407
- Consists of a soft vinyl face piece and an oxygen inlet with a barbed barrel that firmly grasps the oxygen line
- Complete with 7-ft oxygen supply tubing
- Wide elastic bands do not contain natural rubber latex and can be easily adjusted to fit a wide range of head sizes

Individually packaged, 50 to a case.

INFANT NONREBREATHING MASK

Item Code 395498
- Consists of a soft vinyl face piece and an oxygen inlet with a barbed barrel that firmly grasps the oxygen line
- Wide elastic bands do not contain natural rubber latex and can be easily adjusted to fit a wide range of head sizes

Individually packaged, 50 to a case.
INFANT NONREBREATHING MASK WITH 7-FT TUBING

Item Code 395497
- Consists of a soft vinyl face piece and an oxygen inlet with a barbed barrel that firmly grasps the oxygen line
- Wide elastic bands do not contain natural rubber latex
- and can be easily adjusted to fit a wide range of head sizes
- Complete with 7-ft oxygen supply tubing

Individually packaged, 50 to a case.

INFANT MEDIUM-CONCENTRATION MASK

Item Code 395499
- Consists of a soft vinyl face piece and an oxygen inlet with a barbed barrel that firmly grasps the oxygen line
- Wide elastic bands do not contain natural rubber latex
- and can be easily adjusted to fit a wide range of head sizes

Individually packaged, 50 to a case.

INFANT MEDIUM-CONCENTRATION MASK WITH 7-FT TUBING

Item Code 396218
- Consists of a soft vinyl face piece and an oxygen inlet with a barbed barrel that firmly grasps the oxygen line
- Complete with 7-ft oxygen supply tubing
- Wide elastic bands do not contain natural rubber latex
- and can be easily adjusted to fit a wide range of head sizes

Individually packaged, 50 to a case.

AIR ENTRAINMENT MASKS

MULTI-VENT MASKS

Adult
Item Code 1088
- Safe, simple delivery of variable oxygen concentrations
- Each mask includes color-coded diluters: green for low concentration, white for medium concentration
- Locking ring secures flow setting
- Includes adaptor for high humidity entrainment
- Complete with 7-ft oxygen tubing

Individually packaged, 50 to a case.

Item Code 1940
- Same as Item Code 1088 but with universal tubing connector
- Attaches directly onto the flowmeter, eliminating the need for an adaptor

Pediatric
Item Code 1089
- Same as Item Code 1088 but with a pediatric-sized mask

Note: Use of oxygen concentrators with air entrainment mask will alter delivered FiO₂
SELECT-A-VENT MASKS

- Safe, simple delivery of variable oxygen concentrations
- Features 6 color-coded diluters: 24%, 28%, 31%, 35%, 40% and 50%
- Diluters not sold separately
- Includes adaptor for high-humidity entrainment
- Complete with 7-ft oxygen supply tubing

Adult
Item Code 1098
- Kit includes mask, high humidity adaptor, oxygen tubing and 6 color-coded diluters

Note: Use of oxygen concentrators with air entrainment masks will alter delivered \( \text{FiO}_2 \).

Item Code 1943
- Same as Item Code 1098 but with universal tubing connector

Pediatric
Item Code 1096
- Same as Item Code 1098 but with a pediatric-sized mask

NASAL CANNULAS

SOFTECH® PLUS NASAL CANNULAS

Softech Plus is the confident choice for comfortable oxygen delivery because of the proprietary combination of a softer Non-DEHP material and improved product design. Softech Plus will help improve patient comfort and enhance the quality of care.

- Notch between nasal prongs to provide flexibility and a more customized fit for patients
- Soft durometer lariat tubing to increase patient comfort
- Made of non-DEHP material
- Star-lumen design provides crush-proof and kink-proof tubing for continuous flow
- Adult and pediatric sizes have star-lumen lariat tubing
- Green oxygen tubing to reduce connection errors
- Individually packaged, configurations and case quantities listed below

SOFTECH® NASAL CANNULAS

The Softech nasal cannula is produced by a special manufacturing process to provide an exceptionally soft cannula.

- Extremely lightweight and flexible
- Anatomically designed to enhance patient comfort and acceptance
- Over-the-ear design optimizes fit and stability while maximizing patient comfort
- Available with a standard or universal tubing connector that allows direct attachment to flowmeter
- Most configurations include crush-proof and kink-proof tubing for continuous flow
- Available without tubing
- Individually packaged, configurations and case quantities listed below

COMFORT FIT EAR CUSHION CANNULAS

The Comfort Fit and Advanced Comfort Fit cannulas feature ear cushions which help to relieve the pressure around a patient’s ears, promoting comfort and enhancing the quality of care.

- Advanced Comfort Fit High Flow nasal cannula delivers flows up to 15 lpm.
- Exceptionally soft cannula designed with patient comfort in mind.
- Extremely lightweight and flexible; improves patient acceptance.

- Crush-proof and kink-resistant tubing for continuous flow.
- Comfort Fit Ear Cushions help relieve pressure around the ears.
- Over-the-ear design optimizes fit and stability.
- Adult sizes

FREEDOM MICRO FLOW CANNULAS

Softer® cannulas with a design optimized for use with low oxygen flows. Ideal for long-term use.

- Low flow (3 lpm or less)
- Slim design
- Star Lumen tubing
- Lightweight design enhances patient comfort

- Streamlined design is less visible on the skin and more comfortable for the patient.
- Crush-proof and kink-resistant tubing for continuous flow

Individually packaged, configurations listed below.

OVER-THE-EAR CANNULAS

The popular Hudson RCI® over-the-ear cannula, which has set the industry standard for decades, is cost-effective and is offered in a wide range of adult configurations.

- Flexible, contoured lip tab provides a high level of stability and patient comfort
- Over-the-ear design provides a comfortable and secure fit

- Offered with standard (nonflared) or flared nasal prongs
- Available with standard or universal connector and standard or crush-proof and kink-proof Star Lumen® tubing in a variety of lengths

OXYGEN-CONSERVING CANNULAS

The Hudson RCI oxygen-conserving cannula incorporates a patented split prong nasal design and 2 oxygen supply tubes with standard connectors.

- Design provides control and comfort in synchronizing breathing with oxygen conserving regulators
- Use of this cannula requires a conserving regulator with 2 ports, 1 for oxygen delivery and 1 for pressure sampling

**Adult**

**Item Code 1850**

- Oxygen conserving cannula with 5-ft standard oxygen supply tubing

**Item Code 1851**

- Same as 1850 but with 7-ft standard oxygen supply tubing

Individually packaged, 25 to a case.
ETCO₂ SAMPLING CANNULAS
SOFTech® BI-FLO CANNULA
The Softech Bi-Flo Cannula provides the capability of delivering supplemental oxygen while simultaneously sampling expired CO₂.

**Item Code 1843**
- Cannula with 7-ft oxygen supply tubing and 3-in CO₂ sampling line with a female luer connector

**Item Code 1844**
- Cannula with 7-ft oxygen supply tubing and 7-ft CO₂ sampling line with a male luer connector

**Item Code 1845**
- Cannula with 7-ft oxygen supply tubing and 7-ft CO₂ sampling line with a female luer connector

*Individually packaged, 25 to a case.*

OXYGEN CATHETERS AND CANNULAS
OXYGEN CATHETERS

**Item Code 1147**
- 14 French
- 16-in flexible oxygen catheter made of smooth, odorless material
- Apertures are spaced to provide optimal patient comfort

**Item Code 1145**
- 10 French
- Same as Item Code 1147 but 10 French

*Individually packaged, 50 to a case.*

ELASTIC HEAD STRAP CANNULAS

**Adult**
**Item Code 1100**
- Soft, transparent vinyl
- Adjustable elastic band for comfortable, snug fit below the ears
- Complete with 7-ft oxygen supply tubing

**Item Code 1102**
- Soft, pink-tinted vinyl
- Adjustable elastic band for comfortable, snug fit below the ears
- Complete with 7-ft oxygen supply tubing

**Pediatric**
**Item Code 1101**
- Same as Item Code 1100 but sized for pediatric patients

*Individually packaged, 50 to a case.*
INFANT CPAP CANNULAS
INFANT NASAL PRONG CPAP CANNULA

The Hudson RCI® Infant Nasal Prong CPAP cannula system is designed to reduce trauma associated with the delivery of infant nasal CPAP:

- Soft, anatomically curved prongs enhance fit
- Luer fitting on expiratory connector allows proximal airway pressure monitoring

Individually packaged, 10 to a case.

CPAP SYSTEMS

Each system includes the following:
- Cannula
- Inspiratory elbow connector
- Expiratory elbow connector
- Knit cap
- Two 6-inch Velcro sections
- Two 4-ft, 10-mm ID corrugated tubing sections
- 4-ft pressure monitoring line
- 22- to 10-mm humidifier adaptor

CPAP SETS

Each set includes the following:
- Cannula
- Inspiratory elbow connector
- Expiratory elbow connector
- Knit cap
- Two 6-inch Velcro sections
- Two 10- to 7.5-mm adaptors

OXYGEN THERAPY

OXYGEN SUPPLY TUBING

Hudson RCI® oxygen supply tubing is available in a variety of configurations to meet the needs of patients and clinicians in most care settings.

- Available with a standard or universal connector that attaches directly onto the flowmeter, eliminating the need for an adaptor
- Distinctively designed Star Lumen® tubing features a channeled inner lumen to resist kinks and occlusion

Individually packaged, case quantities listed below.

OXYGEN TUBING WATER TRAP

Item Code 1679
- Traps condensed moisture within oxygen supply tubing
- Primarily used in conjunction with a nasal cannula
- Pliable tube resists cracking or breaking
- Plug design minimizes potential for water leak

Individually packaged, 10 to a case.
**CORRUGATED TUBING**

**SMOOTH-FLO® CORR-A-TUBE® II**

Disposable, lightweight tubing available in popular lengths, featuring a corrugated exterior with a smooth interior.

- No internal corrugates for condensate to collect in
- Smooth interior offers quiet passage of airflow even at high flow rates

Individually packaged, case quantities are listed below.

Aquapak Prefilled Bubble Humidifiers are designed to add humidity to inspired gas, helping to control the drying and irritation of the respiratory mucosa. The humidifier features a micro-diffuser that produces smaller bubbles and greater surface agitation, allowing for a quiet operation, therapeutic humidity output and greater patient comfort.

- Combines an easy-to-use adaptor with a choice of 3 sterile reservoir bottle sizes
- Humidifier adaptors incorporate audible alarm to alert clinician to flow restriction or occlusion of humidifier or tubing
- Reservoir bottles have built-in oxygen tubing connectors

**AQUAPAK 340mL KIT**

Item Code 003-40
- 340 mL of sterile water
- Includes 000-40 Humidifier Adaptor

**AQUAPAK 540mL KIT**

Item Code 005-40
- 540 mL of sterile water
- Includes 000-40 Humidifier Adaptor

**AQUAPAK 650mL KIT**

Item Code 006-40
- 650 mL of sterile water
- Includes 000-40 Humidifier Adaptor

**HUMIDIFIER ADAPTOR**

Item Code 000-40
- Audible alarm system alerts clinician of flow restriction or occlusion of oxygen cannula or mask tubing
- Designed for use with Item Code 003-01, Item Code 005-01 or Item Code 006-01

**340mL STERILE WATER**

Item Code 003-01
- Use with Item Code 000-40
- Easy snap-off trigger design
  - Individually packaged, 20 to a case.

**540mL STERILE WATER**

Item Code 005-01
- Use with Item Code 000-40
- Easy snap-off trigger design
  - Individually packaged, 12 to a case.

**650mL OF STERILE WATER**

Item Code 006-01
- Use with Item Code 000-40
- Easy snap-off trigger design
  - Individually packaged, 10 to a case.
Hudson RCI® offers a choice of humidifiers for use with a clinician’s water source. All humidifiers feature an audible pressure-relief valve to signal occlusion of the humidifier or tubing. Humidifier adaptors incorporate an audible alarm to alert clinicians to flow restriction or occlusion of humidifier or tubing.
NEB-U-MASK® SYSTEMS

NEB-U-MASK SYSTEM

Neb-U-Mask is a combination device that allows for the concurrent delivery of aerosolized medications and high concentrations of oxygen or heliox.

- The system includes a wye design featuring a nebulizer connection and MDI port, a high-concentration mask, and a 750-ml gas reservoir bag
- The nebulizer connection features a valved port, which maintains a closed system when the nebulizer is not in use

Adult
Item Code 1895
- Valved nebulizer port helps maintain a closed system at all times
- 360° swivel connector allows the system to be adjusted to the most comfortable position
- Nebulizer and MDI ports allow treatment to be tailored to the patient’s needs

Pediatric
Item Code 1896
- Same as Item Code 1895 except pediatric-sized mask
Masks are individually packaged, 20 to a case.

AEROSOL MISTS

AEROSOL MASKS – ELONGATED

Adult
Item Code 1083
- Under-the-chin design for excellent fit on wide range of face sizes
- Clear, soft vinyl for patient comfort
- Adjustable nose clip assures comfortable fit
- Specifically designed for aerosol therapy
- Does not include tubing
- Accepts 22-mm ID aerosol tubing

Item Code 1385
- Same as Item Code 1083 but with 6-ft Corr-A-Flex® corrugated tubing featuring cuttable sections every 6 inches

Pediatric
Item Code 1085
- Same as Item Code 1083 except pediatric-sized mask
Masks are individually packaged, 50 to a case.
AEROSOL THERAPY

AEROSOL MASKS

Adult
Item Code 1084
• Clear, soft vinyl for patient comfort
• Adjustable nose clip assures comfortable fit
• Specifically designed for aerosol therapy
• Does not include tubing
• Accepts 22-mm ID aerosol tubing

Pediatric
Item Code 1080
• Same as Item Code 1084 except pediatric-sized mask

Face tents are individually packaged, 50 to a case.

FACE TENTS

Item Code 1095
• For high-humidity aerosol therapy
• Distinctive under-the-chin design made of clear, soft vinyl offers patient comfort and ease of speech
• Does not include tubing
• Accepts 22-mm ID aerosol tubing

Item Code 1388
• Same as Item Code 1095 but with 6-ft Corr-A-Flex® corrugated tubing featuring cuttable sections every 6 inches

Item Code 1389
• An under-the-chin face tent, a clear 6-in reservoir tube, and a 7-ft oxygen supply tubing and O2 adapter

Face tents are individually packaged, 50 to a case.

TRACHEOSTOMY MASKS

Adult
Item Code 1075
• For tracheostomy and laryngectomy aerosol therapy
• Tubing connector swivels 360° for ease of positioning
• 22-mm OD connector accepts 22-mm corrugated tubing and nebulizer tees

Pediatric
Item Code 1076
• Same as Item Code 1075 except pediatric-sized mask

Masks are individually packaged, 50 to a case.
SMALL VOLUME NEBULIZERS
MICRO MIST® NEBULIZER

The Micro Mist is a high-performing nebulizer that delivers an optimal particle size at angles up to 90°. The unique design maximizes options for placement, without sacrificing aerosol quality. It is used for intermittent aerosol therapy and can be relied upon to deliver both performance and economy.

- Optimal particle size delivered at efficient nebulization rates
- Consistent performance at angles up to 90 degrees allowing flexible medication delivery
- Jet stays in place unless intentionally removed
- Easy-seal, threaded cap and 6 cc capacity anti-spill jar to prevent leakage
- Recommended flow rate: 8 lpm
- Available with standard or universal tubing connector

Individually packaged, 50 to a case.

MICRO MIST NEBULIZER KIT, 2+2

Item Code 1888
- Each Kit contains 2 each of Item Code 1880 and Item Code 1883

Packaged complete, 25 kits to a case.
AEROTEE™ NEBULIZER SYSTEM

Item Code 1890
- Reservoir bag saves aerosol produced during exhalation for delivery on subsequent inhalation
- Provides 50% more aerosol to the patient than a standard nebulizer tee with 6-in reservoir tube
- No effect on particle size generated by nebulizer
- Cost effective, simple to use, requires no adjustments
- Includes Aerotee, 750-mL reservoir bag, mouthpiece, Micro Mist® nebulizer, and 7-ft oxygen supply tubing
- Recommended flow rate: 8 lpm

Individually packaged, 25 to a case.

UP-DRAFT II® OPTI-NEB® NEBULIZER

Designed to be a universal nebulizer, the Up-Draft II gives you added flexibility in flow rates, delivering quality aerosols at flows ranging from 5 to 9 lpm and making it a popular choice for many facilities looking to consolidate options into one high-performance product.

- Nebulizes at angles up to 45° to accommodate special treatment requirements
- Produces fine, dense particles for effective therapy
- Easy-seal, threaded cap and 8 cc capacity jar
- Anti-spill design prevents loss of medication in any position
- Jet stays in place unless intentionally removed
- Available with standard or universal tubing connector
- Recommended flow rate: 5 to 9 lpm

Individually packaged, 50 to a case.

AEROSOL THERAPY

ISO-NEB FILTERED NEBULIZER SYSTEM

Item Code 1755
- Designed to reduce environmental contamination during aerosol therapy
- Inspiratory and expiratory flows are isolated by one-way valves with exhalation directed through an efficient filter system
- Anti-spill Up-Draft II® Opti-Neb® nebulizer produces fine, dense particles for site-specific therapy
- High-output, 8 cc nebulizer operates vertically or at a 45° angle
- Recommended flow rate: 6 to 8 lpm
  Individually packaged, 20 to a case.

UP-DRAFT® NEBULIZER
- High-output nebulizer available in a variety of configurations
- Large capacity, 15 cc jar allows for aerosol treatments in excess of 1 hour
- Available separately or with a variety of components
  Individually packaged, 50 to a case.

AEROSOL THERAPY

NEONATAL NEBULIZER KIT

**Item Code 1790**
For administration of small volume nebulizer therapy during neonatal mechanical ventilation with 10-mm ID circuits

- Each kit includes 1 each:
  - Up-Draft II® Opti-Neb® nebulizer
  - 12-in, 10-mm corrugated tube
  - 22 mm OD/18 mm ID x 10 mm nebulizer adaptor
  - 10 mm x 7.5 mm connector
  - 10 mm ID x 10 mm OD neonatal tee
  - 7-ft oxygen supply tubing

*Individually packaged, 50 to a case.*

NEONATAL ADAPTOR KIT

**Item code 1792**
• Same as Item Code 1790 but without nebulizer and oxygen tubing

*Individually packaged, 50 to a case.*
The Aquapak prefilled nebulizer features a unique design to maximize patient outcomes and improve efficiency. Featuring a clear return tube, the system recycles large particles back to the reservoir to be aerosolized, reducing tubing rainout and ensuring efficient water consumption.

**AQUAPAK® PREFILLED NEBULIZERS**

Versatile sterile systems provide cold or heated nebulization. Choose from a wide variety of reservoirs, adapters and solutions to meet specific patient requirements efficiently and economically.

- Select from 2 precision nebulizer adaptors for delivery of a consistent aerosol therapy
- 2 heater options provide heated aerosol therapy
- Prefilled sterile reservoirs come in 3 convenient sizes: 440mL, 760mL and 1070mL
- Available with both reservoir and sterile adaptor conveniently packaged together
- Reservoirs may be used with other Hudson RCI® humidification and nebulization products, making the system truly versatile

**NEBULIZER ADAPTORS**

Nebulizer adaptors designed for use with prefilled sterile reservoirs.

**028 ADAPTOR (YELLOW)**

*Item Code 031-28*

- Venturi-style adaptor allows the selection of oxygen concentrations from 28% to 98%

*Individually packaged, 50 to a case.*

**033 ADAPTOR (BLUE)**

*Item Code 031-33*

- Venturi-style adaptor allows the selection of oxygen concentrations from 33% to 98%

*Individually packaged, 50 to a case.*

AEROSOL THERAPY

LARGE VOLUME NEBULIZER

Item Code 1770
- Disposable nebulizer designed for use with clinician-provided water
- Delivers humidified gas in concentrations ranging from 28% to 98%
- Lightweight, easy to use
- Bright yellow, Venturi-style entrainment ring with incremental dial for setting oxygen concentrations
- Polypropylene jar holds up to 500 cc of water
- Clearly marked water levels
  Individually packaged, 50 to a case.

LARGE VOLUME NEBULIZER HEATERS

AQUATHERM® EXTERNAL HEATER

Item Code 048-91
- Use with Aquapak® prefilled nebulizer system to provide heated aerosol
- Simple and reliable heater with a nonadjustable heater output
- Provides aerosol temperatures between 26.6°C and 32.2°C (80°F to 90°F)*
  *As measured at 7 lpm flow and 60% air entrainment at the end of a 5 ft, 22 mm corrugated hose.
- Sold individually

AQUATHERM III EXTERNAL ADJUSTABLE ELECTRONIC HEATER

Item Code 050-14
- Use with Aquapak prefilled nebulizer system to provide heated aerosol
- Illuminated power switch
- Adjustable aerosol temperature to meet varying patient needs
- Sold individually

THERMAGARD® HEATER

Item Code 5705
- Provides continuous heated aerosol
- Illuminated power switch and adjustable temperature range
- Used exclusively with Item Code 1770 (sold separately)
- Sold individually
UNIT DOSE SOLUTIONS
ADDIPAK® UNIT DOSE SOLUTIONS

Addipak unit dose vials are sterile solutions for inhalation therapy. Not for use in parenteral applications.

- Tamper-proof, color-coded vials for easy solution identification
- Inverted milliliter graduations and precise opening for accurate and controlled dispensing of solution
- 15-mL vials packaged 48 to a box, 3 boxes to a case
- 3-mL and 5-mL vials packaged 100 to a box, 10 boxes to a case

The Opti-Neb Pro is a compact, powerful compressor providing an outstanding combination of performance, quality and value. Its sleek design and built-in carrying handle make it convenient to take anywhere. Designed with the patient in mind, the Opti-Neb Pro compressor comes with a stylish carrying bag, nonslip pads and a 5-year limited warranty. It is available with both reusable and disposable nebulizers, allowing you access to the configuration that best meets your needs.

**MDI CHAMBERS**

The Hudson RCI® Anti-Static, Clear, Valved pocket chamber is designed for portability and convenience to accommodate the varied lifestyles of patients with asthma.

- Device features a tethered cap to protect the mouthpiece
- Has standard 22-mm mouthpiece for use with a variety of masks, if desired (see Panda Mask)

**POCKET CHAMBER**

Item Code 1001-10
Packaged 10 to a case.

**POCKET CHAMBER**

Item Code 1001-50
Packaged 50 to a case.

**PANDA MASK**

The Panda Mask is a clear, nonrebreathing mask designed for maximum patient comfort.

- Constructed of pliable silicone with 22-mm ID inlet
- 1-way valve allows exhaled air to exit mask
- Available in 4 convenient sizes

**Infant Mask**

Item Code 1291
Packaged 10 to a case.

**Medium Mask**

Item Code 1293
Packaged 10 to a case.

**Small Mask**

Item Code 1292
Packaged 10 to a case.

**Large Mask**

Item Code 1294
Packaged 10 to a case.

**POCKET PEAK PEAK FLOW METER**

The POCKET PEAK peak flow meter meets NAEPP and NHLBI standards/guidelines.

- Universal 50 to 720 lpm range is convenient, compact and easy to use for adult/child/adolescent patient population
- Durable, sliding zone indicators encourage patient compliance
- Colorful integrated markers allow patients to easily monitor changes in air flow
- Ergonomically designed plastic housing and tempered stainless steel vane are dishwasher safe
- Reusable plastic mouthpiece attaches to unit for secure storage

**POCKET PEAK® PEAK FLOW METER**

Item Code 1801
Packaged 12 to a case.

**DISPOSABLE CARDBOARD MOUTHPIECE**

Item Code 1805
30 mm ID
Packaged 100 to a case.
The Gibeck Humid-Flo 72-Hour Integrated Kit provides clinicians everything they need to start passive humidification and promote best practices in accordance with AARC guidelines to reduce the risk of Ventilator-Associated Pneumonia (VAP).

**GIBECK® HUMID-FLO® HEAT & MOISTURE EXCHANGER**

The exclusive design of the Gibeck Humid-Flo HME allows it to remain in-line during the first 72 hours of mechanical ventilation, even during aerosol treatments.

- Reduces circuit breaks aiding clinician adherence to clinical guidelines regarding infection control practices
- Protects caregivers from exposure to depressurizing circuit spray
- Allows for the delivery of SVN or MDI aerosols
- Reduces the need to routinely interrupt ventilation, therefore maintains positive-end expiratory pressure
- Hygroscopic bacteriostatic microwell paper media provide optimal moisture output with low resistance to flow

Individually packaged, 25 to a case.

**GIBECK HUMID-FLO 72-HOUR INTEGRATED KITS**

Verified as an integrated kit that can be used for 3 days with the same high performance and safety specifications as the selected components, the Gibeck Humid-Flo 72-Hour Integrated Kit reduces the frequency of ventilator circuit breaks by allowing all components to remain in-line during the first 72 hours of mechanical ventilation.

- Promotes best practices for VAP risk reduction
- Reduces the need to stock multiple SKUs
- Saves the clinician valuable time during setups
- Saves time for those ordering the kit
- Eliminates the hidden costs of buying components separately
- Available in a variety of different configurations

Humid-Vent hygroscopic, bacteriostatic, microwell paper media provides optimal moisture output with low flow resistance. Offered in configurations to meet all patient size, tidal volume, and humidification needs.

**GIBECK® HUMID-VENT®
HEAT & MOISTURE EXCHANGERS**

**HUMID-VENT MINI**
Designed specifically for neonatal patients.
- Standard 15 mm ID x 15 mm ID connector
- Provides over 30 mg H₂O/L @ Vt 20 mL
- Only 2.4 mL of added dead space
- Sterile

*Individually packaged, case quantities listed below.*

**HUMID-VENT 1**
The Humid-Vent 1 is the original, disposable, in-line HME.
- Recommended for tidal volumes between 50 mL and 600 mL
- Offers low resistance to flow

*Individually packaged, case quantities listed below.*

**HUMID-VENT 2**
The Humid-Vent 2 is designed in both angled and straight versions for use in intensive care and anesthesia applications.
- Recommended for tidal volumes between 150 mL and 1500 mL
- Transparent housing provides excellent visibility
- Very low resistance to flow

*Humid-Vent 2S Flex configurations include permanently attached 15-mm ID Smooth-Flo® tube with rigid patient connector
*Item Code 17731 is provided sterile for head and neck surgery

*Individually packaged, case quantities listed below.*

GIBECK® HUMID-VENT®
HEAT & MOISTURE EXCHANGER/FILTERS

The Humid-Vent combined filter/HME product line offers solutions to meet the needs of both anesthesia and intensive care.

- Bidirectional filtration offers both patient and equipment protection from airborne pathogens.

HUMID-VENT FILTER PEDI
- Combined filter/HME for children weighing 16-80 lbs.
- Ideal for ICU and anesthesia use.

HUMID-VENT FILTER SMALL
- Extremely small combined filter/HME for tidal volumes of 150-1000 mL.
- Only 27 mL of dead space with 30 mg/L moisture output at 500-mL tidal volume.

HUMID-VENT FILTER COMPACT
- Midsized combined filter/HME for tidal volumes up to 1000 mL.
- 30 mg/L moisture output at 1000-mL tidal volume.

HUMID-VENT FILTER LIGHT
- Designed to accommodate tidal volumes from 250-1500 mL.
- Weighs only 30 grams.
- 2 configurations to meet varying clinical needs of anesthesia and intensive care patients.

The Trach-Vent HME and accessory products are designed specifically for tracheostomized or intubated, spontaneously breathing patients.

GIBECK® TRACH-VENT® HEAT & MOISTURE EXCHANGERS

TRACH-VENT HME

- Recommended for tidal volumes of 50 mL and above
- For use on both pediatric and adult patients
- Weighs only 4.0 g with 10 mL of dead space
- Trach-Vent holder conveniently attaches Trach-Vent to tracheostomy or endotracheal tube, allowing it to be removed and replaced easily during suctioning or change-out
- Oxy-Vent® snaps over Trach-Vent to allow delivery of supplemental oxygen

TRACH-VENT HOLDER

Item Code 61112
Individually packaged, 30 to a case.

OXY-VENT WITH TUBING

Item Code 45512
Includes supplemental oxygen tubing and OXY-VENT adaptor
Individually packaged, 10 to a case.

STARTER KIT

Item Code 41172
3 Trach-Vent HMEs
1 Oxy-Vent
1 Trach-Vent Holder
Individually packaged, 6 kits to a case.

TRACH-VENT+ HME

Item Code 41312
- Compact, lightweight HME for spontaneously breathing patients
- Includes convenient, self-opening/closing suction port
- Integral oxygen port allows delivery of supplemental oxygen when needed
- Weighs only 6.5 g
Individually packaged, 50 to a case.

**AQUA+ HCHs**

**AQUA+ HCH**

The Aqua+ HCH line uses a fiber-free, cellular, hygroscopically treated media and is available in a variety of configurations to meet a wide range of clinical needs.

- Aqua+ T and TS models, designed for spontaneously breathing tracheostomy patients, include built-in supplemental oxygen port
- Aqua+ TS includes port for convenient suctioning
- Aqua+ Flex utilizes a 1-piece construction with flexible tubing to aid in patient positioning
- Aqua+ N is ideal for neonate and infant patients
- Aqua+ 1HS and Aqua+ are designed for most adult and pediatric applications

Individually packaged, case quantities listed below.

**AQUA+ SWIVEL HCH**

The Aqua+ swivel allows 360° of flexibility in positioning the patient and HCH, minimizing torque.

- Available in filtered and unfiltered versions

*Includes integral gas sampling port and sampling-line holder
*Aqua+ FHY and HY incorporate built-in patient wye

**AQUA+ 1-2-3**

All versions have angled patient connections and include a CO₂-monitoring port to eliminate the need for separate gas-sampling elbow

- Available in filtered and unfiltered versions

Individually packaged, case quantities listed above.
Hudson RCI offers flex tubes to meet a variety of clinical needs in ICU and anesthesia settings.

**FLEX TUBES**

**SMOOTH-FLO® FLEX**

**Item Code 20011**
- Supplied sterile, ideal for head and neck surgery
- 15 mm ID and 15 mm OD rigid connectors on ends
- 30 mL of dead space

*Individually packaged, 20 to a case.*

**EXPANDI FLEX**

**Item Code 22362**
- Lightweight positionable flex tube with rigid connectors
- 15 mm ID x 15 mm OD connectors
- Adjustable length, 95-155 mm
- Dead space is 14 mL collapsed, 30 mL expanded

*Individually packaged, 25 to a case.*

**SOFTFLEX**

**Item Code 1800402**
- Extremely light and flexible tube
- 22 mm ID x 15 mm ID tubing connectors
- 31 mL of dead space

*Packaged 100 to a case (10 bags of 10).*

**SOFTFLEX WITH RIGID CONNECTOR**

**Item Code 1800404**
- Same tube as Item Code 1800402 but with rigid 15-mm ID patient connector

*Packaged 100 to a case (10 bags of 10).*
PASSIVE HUMIDIFICATION & FILTRATION

FLEX TUBE AND HME COMBINATIONS

A wide variety of convenient prepackaged flex tube/HME combinations are available to meet a variety of humidification and patient needs.

- Each combination includes 1 HME and 1 flex tube

Individually packaged, case quantities listed below.

Gibeck ISO-GARD Filters are HEPA Class 13 and are the premium choice for airway protection.

GIBECK® ISO-GARD® FILTERS

Iso-Gard Hepa and Depth Filter Systems offer bidirectional bacterial/viral filtration for cross-contamination protection of patient, equipment and caregiver.

• Suitable for use on pediatric to adult patients

ISO-GARD HEPA LIGHT

Iso-Gard Hepa Light is an advanced, highly hydrophobic bacterial/viral filter, HEPA class 13.

• Bacterial/Viral filtration efficiency of 99.9999+%
• Item Code 28002 includes gas sampling port with 22 mm ID/15 mm OD x 22 mm OD/15 mm ID connectors
• Item code 28012 has 22 mm ID x 22 mm OD/15 mm ID connectors
• Item Code 28022 has 22 mm ID x 22 mm OD/15 mm ID connectors, ideal for machine filtration applications
• May be used as an HME (see moisture output on chart)

Individually packaged, 20 to a case.

ISO-GARD HEPA SMALL

Uses the same, proven bidirectional bacterial/viral filtration media used in the larger HEPA Light models, at half the size.

• High-level filtration protection while conserving patient exhaled heat and humidity (see moisture output on chart)
• For use with adult and pediatric patients in anesthesia applications

• Bacterial/Viral filtration efficiency: 99.9999+%
• True hydrophobic HEPA filter, HEPA Class 13
• Smooth, lightweight, transparent, low-dead-space housing design for maximum patient and staff comfort

Individually packaged, 20 to a case.

ISO-GARD® DEPTH FILTER

The Iso-Gard Depth Filter is a hydrophobic, electrostatic bacterial/viral filter for use on the patient end of circuit when an HME is not required.

**Item Code 19212**
- 22 mm ID/15 mm OD x 22 mm OD/15 mm ID
- Bacterial efficiency 99.9999%; viral efficiency 99.99+%;
- Weight is 22 g; dead space is 26 mL
- Resistance is 2.0 cm H₂O, 60 lpm
- Individually packaged, 25 to a case.

FILTERS

These disposable bacterial/viral filters use a nonconductive, naturally hydrophobic filter media to address a wide variety of clinical applications.

MAIN FLOW BACTERIAL/VIRAL FILTER

**Item Code 1605**
- 22 mm ID x 15 mm OD
- Bacterial efficiency 99.999+%; viral efficiency 99.99+
- Dead space is 42 mL
- Flow resistance approximately 1.5 cm H₂O at 60 lpm
- Individually packaged, 50 to a case.

PULMONARY FUNCTION BACTERIAL/VIRAL FILTER

**Item Code 1603**
- 30 mm ID x 30 mm OD
- Individually packaged, 50 to a case.

VENTILATOR MAIN LINE FILTER KIT

The Main Line Filter Kit is used to connect main-flow supply from ventilator to heated humidifier.

**Item Code 1606**
- Convenient configuration incorporates Item Code 1605
- Individually packaged, 30 to a case.

AQUA+F BACTERIAL/VIRAL FILTER

The AQUA+F Bacterial/Viral Filter is for adult applications where a filter is desired between the patient and circuit.

**Item Code 1577**
- 15 mm ID/22 mm OD patient connection
- Tidal volumes from 350-1500 mL
- 99.9+% bacterial/viral efficiency
- Includes integral gas sampling port
- 360° swivel design aids positioning and minimizes torque
- Individually packaged, 20 to a case.
ConchaTherm Neptune is a heated humidifier with adjustable airway temperature and temperature gradient control, which allow for customized treatment – maximizing humidity delivered while minimizing circuit condensation.

ConchaTherm® Neptune® Heated Humidifier

- Power On/Off
  - Press and Hold
- Mode Selection
  - NIV or Invasive
- Pause
- Control Panel
  - Displays source of alarm to facilitate troubleshooting
- Adjustable patient airway temperature
- Temperature Gradient Control
- Accept

CONCHATHERM NEPTUNE HEATED HUMIDIFICATION SYSTEM

ConchaTherm Neptune offers the utmost in simplicity, while providing the option to make adjustments and customize settings in response to unique patient or environmental challenges or in keeping with hospital protocols.

- Can be safely used across the continuum of care, from neonates to adults
- Uses the safe, convenient Concha® Column and prefilled sterile water reservoir system
- Compatible with Hudson RCI heated-wire breathing circuits
- Adjustable temperature and temperature gradients to control circuit condensation
- Designed for invasive and noninvasive applications, including noninvasive ventilation, Heated Humidified High Flow Nasal Cannula Therapy (HH-HFNC) and Continuous Positive Airway Pressure (CPAP)
- Intuitive user interface
- High ventilator output mode compensates for high outlet temperatures and challenging modes of ventilation
- Displays and regulates to the desired patient airway temperature

COMFORT FLO® HUMIDIFICATION SYSTEM
HIGH FLOW NASAL CANNULA THERAPY

The Comfort Flo Humidification system allows for the safe and effective delivery of heated, humidified oxygen therapy to a broad range of patients. The disposable delivery system and line of specialty cannulas allow flow rates ranging from 1 to 40 lpm. For use with the ConchaTherm® Neptune® heated humidifier.

- Provides continuous flow to spontaneously breathing patients neonate through adult

• Unique Comfort Flo Concha®-Column maintains constant water level for maximum humidification at all flows
• Sterile column and prefilled water reservoir with aseptic puncture spike connections
• ConchaTherm Neptune’s adjustable airway temperature and gradient control allows for customization of therapy to enhance patient comfort and minimize condensation
• Soft, comfortable nasal cannula sold separately

*System includes circuit, column, supply tubing, 5-psi system pressure relief valve and tubing adapter. Water and nasal cannula sold separately.
†System includes circuit with remote port, column, supply tubing, 5-psi system pressure relief valve and tubing adapter. Water and nasal cannula sold separately.

Diagram is representative of typical high flow oxygen therapy set up with the ConchaTherm system. Some products shown are not manufactured by Teleflex.
Hudson RCI offers a suite of ventilation management accessories to promote patient safety and clinician efficiency. These products include ventilator circuits that support AARC clinical practice guidelines and Concha-Columns that support a wide range of therapeutic strategies.

**CONCHATHERM® PRODUCTS**

**CONCHAPAK®**

Self-contained system for use with ConchaTherm heaters includes sterile water reservoir and choice of standard, low compliance or minimal compliance Concha-Column®.

- Safe, reliable gravity-feed system provides uninterrupted water flow
- Easy reservoir and column replacement
- Standard and low compliance columns available with 2 vertical or 1 vertical and 1 right-angle port
- Minimal compliance column has 1 vertical and 1 45°-angle port
- Columns available in a variety of configurations, including packaged individually, with Concha Reservoir and with Hudson RCI Breathing Circuit

**CONCHA®-COLUMNS**

ConchaTherm standard and low compliance columns are available with either vertical or right-angle ports. Minimal compliance column is available with a 45°-angle port only and a built-in temperature monitoring port. Temperature probe port on the cap facilitates temperature control.

**Low Compliance Columns Item Code 382-30**

- Compressible volume: 248 mL
- Compliance: 0.25 mL/cm H₂O
- Available in configurations with Concha Reservoir
- Available in configurations with Hudson RCI breathing circuits

**Standard Columns Item Code 382-70**

- Compressible volume: 103 mL when reservoir is full, 268 mL when reservoir is at replace mark
- Compliance is variable upon water level
- Available in configurations with Concha Reservoir
- Available in configurations with Hudson RCI breathing circuits

*Individually packaged, 48 to a case.*

**Minimal Compliance Column**

- Compressible volume is constant at 109 mL

*Individually packaged, 48 to a case.*

**CONCHA RESERVOIR Item Code 381-50**

The Concha Reservoir is a self-contained plastic bottle with sterile water for inhalation.

- For use exclusively with ConchaTherm heaters
- Features unique sterile water packaging and connections, reducing the risk for errors

*Individually packaged, 6 to a case.*

# HUDSON RCI® BREATHING CIRCUITS

Designed with safety in mind, Hudson RCI breathing circuits are available in a variety of configurations. Regardless of your hospital protocol, we have a circuit to meet your needs.

- **Proprietary stranded wire technology enhances circuit safety and durability**
- **Designed to provide optimal humidification, while minimizing condensation in inspiratory and expiratory limbs**

ACTIVE HUMIDIFICATION & BREATHING CIRCUITS

Adult Conventional Circuits

Hudson RCI® Adult conventional (non-heated) ventilator circuits are available in a variety of different configurations and styles.

- Adult Ventilator circuits incorporate standard connectors for use with a variety of ventilators
- Ported wyes allow pressure sensing and temperature monitoring and include tethered caps

- All adult conventional circuits are 72 inches long
- Individually packaged 10 per case, except as noted.

Item Code 1607
- Standard ventilator circuit
- Straight connector inspiratory limb (for use with HMEs only)

Item Code 1608
- Standard ventilator circuit
- Includes humidifier limb

Item Code 1609
- Circuit with in-line water traps
- Includes humidifier limb

Item Code 1698
- NPPV Circuit
- Single limb

Item Code 1617
- Circuit with 1/8 in. and 1/4 in. I.D. pressure monitoring tubing and separate water traps
Adult Heated-Wire Circuits

Hudson RCI® Adult Heated-Wire ventilator circuits are available in a variety of different configurations and styles.

- Adult Ventilator circuits incorporate standard connectors for use with a variety of ventilators
- Adult heated-wire circuits are designed for use with ConchaTherm® Neptune® heated humidifiers.
- Ported wyes allow pressure sensing and temperature monitoring and include tethered caps
- All adult heated-wire circuits are 60-inches long
- Individually packaged 10 per case, except as noted

**Item Code 780-31**
- Standard circuit with 1/8 in. and 1/4 in. I.D. pressure monitoring tubing
- Heated inspiratory limb
- Available with Low Compliance Concha-Column, item code 780-31KIT

**Item Code 780-32**
- Standard circuit with 1/8 in. and 1/4 in. I.D. pressure monitoring tubing
- Dual heated limbs
- Available with Low Compliance Concha Column, item code 780-32KIT

**Item Code 780-33**
- Circuit with heated inspiratory limb
- Expiratory limb water trap
- Includes humidifier limb
- Available with Low Compliance Concha-Column, item code 780-33KIT

**Item Code 780-34**
- Circuit with heated inspiratory limb
- Water traps assembled in both limbs
- Includes humidifier limb

**Item Code 780-35**
- Circuit with dual-heated limbs
- Includes humidifier limb
- Available with Low Compliance Concha-Column, item code 780-35KIT

**Item Code 780-36**
- Circuit with dual-heated limbs
- Water traps assembled in both limbs
- Includes humidifier limb
- Available with Low Compliance Concha-Column, item code 780-36KIT
Adult Heated Wire Circuits (Cont’d)

**Item Code 780-98**
- Single limb heated-wire NIV breathing circuit
- Includes pressure monitoring tube
- Available packaged with Standard Compliance Concha®-Column, item code 780-98KIT

**Item Code 780-19**
- Single-heated limb circuit accessory
- Includes humidifier limb and separate temperature probe adaptor
- Available packaged with Standard Compliance Concha-Column, item code 780-19KIT
- *Individually packaged 20 to a case*

**Item Code 780-20**
- Single-heated limb circuit accessory with separate temperature probe adaptor
- Available packaged with Standard Compliance Concha-Column, item code 780-20KIT
- *Individually packaged 20 to a case*
Pediatric Conventional Circuits

Pediatric ventilator circuits are available in a variety of configurations and styles.

- Circuits use 15 mm tubing, include two pressure lines, and incorporate standard 15mm and 22 mm connectors
- Ported wyes allow pressure and temperature monitoring and include tethered caps
- All pediatric circuits, heated-wire and conventional, are 60 inches long
  - Individually packaged 20 to a case

Item Code 780-21
- Standard pediatric circuit
  - Includes humidifier limb

Item Code 780-22
- Standard pediatric circuit
  - Two separate water traps (one shown)
  - Includes humidifier limb

Pediatric Heated Wire Circuits

Pediatric Heated Wire circuits are available in a variety of configurations and styles.

- Circuits are 60 inches long, unless noted
- Pediatric heated wire circuits are designed specifically for use with ConchaTherm® Neptune® heated humidifiers
  - Individually packaged, 20 to a case

Item Code 780-23
- Circuit with heated inspiratory limb
  - Separate water trap
  - Includes humidifier limb

Item Code 780-24
- Circuit with dual-heated limbs
  - Includes humidifier limb
  - Available packaged with Low Compliance Concha-Column, item code 780-24KIT

Item Code 780-30
- 15mm single-heated limb circuit
ACTIVE HUMIDIFICATION & BREATHING CIRCUITS

Neonatal Conventional Circuits

Neonatal conventional (non-heated) ventilator circuits are available in a variety of configurations and styles.

- Circuits use 10 mm tubing, include two pressure lines, and incorporate standard 15 mm and 22 mm connectors
- Ported wyes allow pressure and temperature monitoring and include tethered caps
- All neonatal circuits, heated-wire and conventional, are 48 inches long, unless noted
- All neonatal circuits include a humidifier limb
- Neonatal conventional and heated-wire circuits are available with and without water traps
- Individually packaged, 20 to a case

Item Code 780-10
- Standard neonatal ventilator circuit with proximal temperature port and separate water traps

Item Code 780-11
- Standard neonatal ventilator circuit with proximal and 18-inch remote temperature ports and separate water traps

Item Code 780-12
- Standard neonatal circuit with assembled water traps
- Proximal and 18-inch remote temperature ports
Neonatal Heated Wire Circuits

Neonatal heated wire circuits are available in a variety of configurations and styles.

- Neonatal heated-wire circuits are designed for use with ConchaTherm® Neptune® heated humidifiers.
- All neonatal heated wire circuits are 48 inches long, unless noted
- Individually packaged, 20 to a case

Item Code 780-01
- Single heated inspiratory limb circuit
- Includes humidifier limb
- 60 inches long
- Available packaged with Standard Compliance Concha-Column, item code 780-01KIT

Item Code 780-08
- Circuit with dual-heated limbs
- Includes humidifier limb
- Available packaged with Low Compliance Concha-Column, item code 780-08KIT

Item Code 780-09
- Circuit with dual-heated limbs
- Includes humidifier limb
- 60 inches long
- Available packaged with Low Compliance Concha-Column, item code 780-09KIT

Item Code 780-13
- Circuit with heated inspiratory limb and expiratory water trap
- Proximal and 18-inch remote temperature ports

Item Code 780-14
- Circuit with heated inspiratory limb
- Proximal and 18-inch remote temperature ports
- Assembled water traps in both limbs
Neonatal Heated Wire Circuits (Cont’d)

Item Code 780-15
- Same as 780-14, but dual-heated limbs
- Available packaged with Low Compliance Concha-Column, item code 780-15KIT

Item Code 780-16
- Circuit with heated inspiratory limb
- Proximal and 18-inch remote temperature ports
- Includes humidifier limb

Item Code 780-17
- Circuit with dual-heated limbs
- Proximal and 18-inch remote temperature ports
- Includes humidifier limb
- Available packaged with Standard Compliance Concha-Column, item code 780-17KIT

Item Code 780-18
- Circuit with dual-heated limbs
- Proximal and 18-inch remote temperature ports
- Includes humidifier limb
- 60 inches long
- Available packaged with Low Compliance Concha-Column, item code 780-18KIT

Item Code 780-43
The SMOOTH-FLO® circuit and minimal compliance column enhance humidification and gas delivery to infants and neonates in traditional modes of ventilation
- Minimal deadspace, low compressible volume, and low resistance to flow
- Swivel patient connector to lessen torque at airway
- Clear, smooth bore tubing
- 15 mm I.D. expiratory limb decreases resistance to flow
- Proximal and 18-inch remote temperature ports
- Includes humidifier limb
- Individually packaged 20 per case
OSMO™: MAINTENANCE-FREE WATER REMOVAL

OSMO is a universal solution that allows for maintenance-free water removal from the expiratory limb during mechanical ventilation.

- Inner cylinder design maximizes dwell time, allowing water to cool and condense
- Transparent body allows for visualization of water level
- Maximum water level indicator line indicates when replacement is needed
- Adaptors included allow for broad ventilator compatibility
- 2 sizes available
- Packaged individually or with heated-wire circuits

OSMO

Item Code 800-00
- Suitable for use on all patient types, neonatal to adult

Packaged 10 to a case.

OSMO WITH 10-MM HEATED-WIRE CIRCUIT

Item Code 800-18
- Packaged with Item Code 780-18 (Neonatal Heated Wire Breathing Circuit)

Packaged 10 to a case.

OSMO PLUS

Item Code 800-10
- Designed exclusively for adult applications
- Ideal choice for patients requiring prolonged acute mechanical ventilation

Packaged 10 to a case.

OSMO PLUS WITH 22-MM HEATED-WIRE CIRCUIT

Item Code 800-35
- Designed exclusively for adult applications
- Ideal choice for patients requiring prolonged acute mechanical ventilation
- Packaged with Item Code 780-35 (Heated-Wire Breathing Circuit)

Packaged 10 to a case.
ACTIVE HUMIDIFICATION & BREATHING CIRCUITS

IMV SYSTEMS
COMPLETE IMV SYSTEM
Item Code 1652
• Includes a humidifier manifold, reservoir manifold, oxygen inlet, 3-L reservoir bag, an antisuffocation valve and 7-ft oxygen supply tubing
• This product contains natural latex rubber
Individually packaged, 15 to a case.

BASIC IMV SYSTEM
Item Code 1654
• Same as Item Code 1652, but without reservoir bag and oxygen tubing
Individually packaged, 15 to a case.

VENTILATOR ACCESSORIES
UNIVERSAL IPPB CIRCUIT
Item Code 1560
• Suitable for use with all IPPB machines
• Sensitive exhalation valve with clear cap for accurate view of valve function
• Expiratory flow diverter directs gas away from therapist and patient
• Complete with high-output nebulizer with 20-mL jar capacity, mouthpiece, 6-in and 39-in Corr-A-Flex® tubing, multiple adaptor kit, and exhalation valve and nebulizer drivelines
Individually packaged, 50 to a case.

VENTILATOR MONITORING ADAPTER CIRCUIT
Item Code 1667
• Used for obtaining ventilation parameters
• Includes 6-in tube, tee, nipple adaptor, 15-mm/22-mm adaptor, 2 one-way valves
Individually packaged, 50 to a case.

TRACH TEE OXYGENATOR
Item Code 1668
• Includes oxygen nipple adaptor, aerosol tee and 6-in Corr-A-Flex tube
Individually packaged, 50 to a case.
CONCHATHERM® ACCESSORIES
TEMPERATURE PROBES
- Designed to monitor airway temperature and signal high- and low-temperature alarms
- High-accuracy, responsive thermistor probes are easily installed in ventilator circuit
- Water-resistant probe connections fit snugly in-line

Sold individually.

CONCHATHERM NEPTUNE® RIGHT-ANGLE DUAL TEMPERATURE PROBE
Item Code 395-90
- 64 in long
- Right angle proximal probe

Sold individually.

CONCHATHERM NEPTUNE STRAIGHT DUAL TEMPERATURE PROBE
Item Code 395-99
- 64 in long
- Straight-tip proximal probe designed for smaller pediatric/neonatal wyes

Sold individually.

CONCHATHERM TUBING ADAPTOR
Item Code 384-00
- Tapered fitting to 7 mm
- 15.5 mm ID/19 mm OD

Packaged 30 to a case.

CONCHA OXYGEN DILUTER
Item Code 384-26
- When used with ConchaTherm humidifier, allows delivery of heated, humidified oxygen at specific concentrations
- Adjustable 26% to 90%

Packaged 30 to a case.

CONCHA NEBULIZER ADAPTER
Item Code 388-28
- When used with ConchaTherm humidifier, allows delivery of heated aerosol at specific oxygen concentrations
- Adjustable 28% to 90%

Packaged 30 to a case.
ACTIVE HUMIDIFICATION & BREATHING CIRCuits

ADULT PROBE ADAPTER

Item Code 380-74
- Standard 22 mm OD x 22 mm ID connections
- Port accepts Concha temperature probes

Packaged 24 to a case.

CONCHATHERM® HOSE ADAPTOR

Item Code 384-10
- 5/16 in. barbed fitting
- 15.5mm I.D./19mm O.D.
- 30 to a case

CONCHA® MOUNTING BRACKETS

CONCHATHERM NEPTUNE®

Item Code 386-10
- Universal pole mount
- Bracket

Item Code 386-40
- Wall bracket

Item Code 386-58
- Drager Evita 2 & 4
- Ventilator bracket

Item Code 386-73
- Hill Rom
- Rail mounting bracket

Item Code 386-75
- Siemens ADVENT, PB, Respironics Esprit
- Ventilator bracket

Item Code 386-76
- LP6, LP10, PLV-100, PB COMPANION 2801
- Ventilator bracket
ConchaTherm® humidifiers have multiple mounting capabilities and can be used with a variety of accessories.

**Item Code 386-82**
- Puritan-Bennett 840
- Ventilator bracket

**Item Code 386-88**
- Maquet Servo-i
- Ventilator bracket

**Item Code 386-81**
- Reservoir Bracket

**Item Code 386-79**
- Concha® Mini
- Reservoir bracket
ACTIVE HUMIDIFICATION & BREATHING CIRCUITS

CPAP HUMIDIFICATION PRODUCTS
CONCHATHERM® 2000
Designed to provide optimal humidification during mask CPAP and noninvasive ventilation.

- Easy-to-use, easy-to-assemble system is user configurable
- Basic system provides cold-passover humidity and can be upgraded with ConchaTherm 2000 heated humidifier, if desired

BASIC HUMIDIFICATION KIT
Item Code 500-10
- Includes components for cold-passover humidity
- Includes:
  Item Code 500-20 (Chamber – Single Patient Use)
  Item Code 500-50 (Inlet Tube – Single Patient Use)
  Item Code 500-43 (Foldable Tray)

HEATED HUMIDIFIER
Item Code 500-00
- Features adjustable heater control, heater-on indicator

INLET TUBE
Item Code 500-60
- Autoclavable
- Sold individually

CONCHATHERM 2000 UNIVERSAL POLE BRACKET
Item Code 386-85
- Sold individually
REUSABLE CONCHATHERM® 2000 CHAMBERS

Chamber – Single Patient Use

Item Code 500-20
• Sold individually
Specially designed, refillable chambers feature:
• Threaded, removable stainless steel base
• Easy-fill port allows refilling without removal of tubing

Chamber – Autoclavable

Item Code 500-30
• Sold individually

DISPOSABLE CONCHATHERM 2000 CHAMBERS

Item Code 500-25

The Disposable CPAP Humidification Chamber is for use with the ConchaTherm 2000 humidification system. The chamber features an easy-fill port that allows for refilling without removal of the tubing.

10 per case, two chambers per package.
OXYGEN THERAPY
AEROSOL THERAPY
PASSIVE HUMIDIFICATION & FILTRATION
ACTIVE HUMIDIFICATION & BREATHING CIRCUITS
RESUSCITATION BAGS
INCENTIVE SPIROMETERS
ADAPTORS & CONNECTORS
The Lifesaver disposable manual resuscitators combine quality, features and performance.

- Designed to meet ISO resuscitation bag standards
- Unique right-angle O₂ tubing connector swivels 360°
- Does not contain natural rubber latex
- Includes Star-Lumen® tubing and universal oxygen connector

Individually packaged, 6 to a case.

Adult Resuscitation Bags

The adult resuscitation bags are available with a variety of options, including a capped pressure-monitoring port/60-cm pop-off valve style.

- All configurations include swivel flow diverter for connection of PEEP valve
- Available with optional PEEP valve, filter or manometer

Adult Foldable Resuscitation Bag

The foldable resuscitation bag incorporates the same great features as the standard Lifesaver adult bag and collapses for compact storage.

- Swivel flow diverter allows connection of PEEP valve
- Includes adult face mask (Item Code 1276)

Individually packaged in drawstring, tamper-evident bags, 6 to a case.

Pediatric and Infant Resuscitation Bags

All pediatric/child and infant/neonate bags include a capped pressure monitoring port and 40-cm pressure relief pop-off valve.

- All configurations include swivel flow diverter for optional connection of PEEP valve or manometer

LIFESAVER® REUSABLE RESUSCITATORS
LIFESAVER REUSABLE RESUSCITATOR

- Autoclavable (except reservoir bag)
- Easy to assemble
- Collapsible for compact, convenient storage
- Nonbreathing valve offers low resistance to both inspiratory and expiratory flows
- Adaptor (Item Code 1669) positioned between mask and bag, may be used for pressure or CO₂ monitoring
- Durable masks feature silicone construction
- Larger masks include clear rigid shell
- Sold individually

Adult Resuscitation Bags
Item Code 5340
- Mask and reservoir bag not included

Item Code 5345
- Includes mask, reservoir bag and reservoir valve assembly

Child Resuscitation Bags
Item Code 5341
- Mask and reservoir bag not included

Item Code 5346
- Includes mask, reservoir bag and reservoir valve assembly

Infant Resuscitation Bags
Item Code 5342
- Mask and reservoir bag not included

Item Code 5347
- Includes mask, reservoir bag and reservoir valve assembly

The Hudson RCI® Hyperinflation Bag System is designed to provide controlled or assisted ventilation to neonatal and pediatric patients in the NICU and labor and delivery or during patient transport.

- High-quality, durable bag allows clinicians to feel the patient’s lung compliance
- Adjustable valve for fingertip control of system pressure
- Available with 7-ft Star-Lumen® oxygen tubing and 7-ft pressure tubing
- Item Code 2700-205 includes both neonate mask (Item Code 15800) and infant mask (Item Code 15802)
- Item Codes 5405, 5406, 5407 and 5408 come with oxygen supply tubing

Individually packaged, 20 to a case.

POCKETPAK RESUSCITATOR
The PocketPak emergency mask kit prevents mouth-to-mouth contact during resuscitation and fits standard manual resuscitators. The collapsible mask is easy to use and convenient to carry.

Item Code 1187
- Mask with pliable, clear dome to provide secure seal
- Capped port for delivery of supplemental oxygen
- Low-resistance valve and particle filter
- Foldable extension tube
- Packaged in a sturdy “clam shell” case, 4 masks to a convenient storage box

ISOLATION VALVES AND KITS
Hudson RCI® isolation valves and kits prevent mouth-to-mouth contact during emergency resuscitation. The disposable valve directs the rescuer’s breath to the patient while diverting exhalation away from the rescuer.

Isolation Valve
Item Code 1180
- 22 mm ID x 22 mm OD/15-mm ID connections

Filtered Isolation Valve
Item Code 1181
- Same as Item Code 1180 but with pathogen filter

Adult Kit
Item Code 1182
- Isolation valve (Item Code 1180)
- Adult mask
- Mouthpiece

Individually packaged, 10 to a case.

Adult Filtered Kit
Item Code 1184
- Filtered isolation valve (Item Code 1181)
- Adult mask
- Mouthpiece

Child Filtered Kit
Item Code 1185
- Filtered isolation valve (Item Code 1181)
- Child mask
- Mouthpiece

Adult Filtered Kit
Item Code 1186
- Filtered isolation valve (Item Code 1181)
- Adult mask
- Mouthpiece
- 6-in flexible tube
INCENTIVE SPIROMETERS

**VOLDYNE® 5000**

*Item Code 8884719009*
- Volume measurement up to 5000 mL accommodates large inspired volumes
- Good-Better-Best flow window
- Compact, ergonomic design
- Advanced, low work-of-breathing design

*Built-in handle*
*Particulate filter screen in mouthpiece*

*Individually packaged, 12 to a case.*

---

**VOLDYNE 2500**

*Item Code 8884719025*
- Volume measurement up to 2500 mL accommodates smaller inspired volumes
- Good-Better-Best flow window
- Compact, ergonomic design
- Advanced, low work-of-breathing design

*Built-in handle*
*Particulate filter screen in mouthpiece*

*Individually packaged, 12 to a case.*

---

**PEDIATRIC VOLDYNE**

*Item Code 8884719017*
- Volume measurement up to 2500 mL accommodates pediatric inspired volumes
- Colorful, child-oriented labeling to facilitate patient evaluation and use
- Pediatric-sized mouthpiece
- Compact, ergonomic design

*Advanced, low work-of-breathing design*
*Built-in handle*
*Includes fun puzzle/coloring book*

*Individually packaged, 12 to a case.*
INCENTIVE SPIROMETERS

AIR-EZE® BREATHING EXERCISER
Item Code 8884715700
- Wide flow rate range from 200 to 1200 cc/sec
- Low resistance design
- Sliding incentive indicator

TRIFLO® II INSPIRATORY EXERCISER
Item Code 8884717301
- Wide flow rate range from 600 to 1200 cc/sec
- 3 color-coded balls/3 chambers
- Minimum flow imprinted on each chamber
- Compact design and break-resistant plastic

HUDSON RCI® LUNG VOLUME EXERCISER
Item Code 1750
- Wide flow rate range from 200 to 1200 cc/sec
- Adjustable, clearly marked flow settings
- Dual-chamber design creates constant resistance that lifts the ball when patient maintains inspiration equal to the selected inspiratory flow setting
- Individually packaged, 10 to a case.

Individually packaged, 12 to a case.

ADAPTORS & CONNECTORS
Hudson RCI offers an extensive line of adaptors and connectors, including elbows, wyes, tees and much more in a wide range of sizes and designs, to address your respiratory and anesthesia needs.

**ADAPTORS AND CONNECTORS**

**TUBING ADAPTOR**
- Item Code 1640
  - Standard 22 mm OD x 22 mm ID
  - Packaged 50 to a case.

**UNIVERSAL CUFF ADAPTOR**
- Item Code 1421
  - Standard 22-mm ID connections
  - Packaged 50 to a case.

**NEBULIZER ADAPTOR**
- Item Code 1746
  - 22 mm O.D. x 18 mm O.D.
  - Packaged 50 to a case.

**MULTI ADAPTOR**
- Item Code 1422
  - Standard 15 mm ID/22 mm OD connections
  - Packaged 50 to a case.

**LARGE TUBING CONNECTOR**
- Item Code 1409
  - Standard 22 mm OD x 22 mm OD connections
  - Packaged 50 to a case.

**22-MM ISO CUFF ADAPTOR**
- Item Code 1678
  - 22mm ID/22mm OD connections
  - Packaged 50 to a case.

**SOFT CUFF ADAPTOR**
- Item Code 1663
  - Approximately 21 mm ID x 19 mm ID
  - Made of flexible material
  - Packaged 50 to a case.

**THERMOMETER ADAPTOR**
- Item Code 1645
  - Standard 22 mm OD x 22 mm ID connections
  - Port accepts CONCHA temperature probes
  - Packaged 50 to a case.

**PRESSURE LINE ADAPTOR**
- Item Code 1642
  - Standard 22 mm OD x 22 mm ID connections
  - Elbow swivels 360°
  - Packaged 50 to a case.

**MONITORING ADAPTOR**
- Item Code 1669
  - 15 mm OD x 15 mm ID/22 mm OD connectors
  - Standard luer fitting
  - Can be used with LIFESAVERT resuscitation bags
  - Packaged 50 to a case.
ADAPTOR WITH O₂ PORT
Item Code 9059
- Standard 22 mm OD x 22 mm ID connections
- Capped port
Packaged 250 to a case.

TUBING CONNECTOR
Item Code 1420
- Couples oxygen supply tubing using 5- to 7-mm end connectors
Packaged 50 to a case.

STEP-DOWN ADAPTOR
Item Code 1768
- 15 mm OD x 22 mm ID
Packaged 25 to a case.

STEP-DOWN ADAPTOR
Item Code 1769
- 15 mm OD x 22 mm ID
Packaged 50 to a case.

NIPPLE AND NUT ADAPTOR
Item Code 2555
- Hose adaptor for standard DISS oxygen outlets
Packaged 50 to a case.

NIPPLE AND NUT ADAPTOR
Item Code 2556
- Yellow
- For use in connecting tubing to standard D.I.S.S. outlets
Packaged 50 to a case.

NIPPLE AND NUT ADAPTOR
Item Code 2557
- Clear
- For use in connecting tubing to standard D.I.S.S. outlets
Packaged 50 to a case.
ELBOWS

PATIENT ELBOW ADAPTOR
Item Code 1623
- 15 mm OD x 15 mm ID/22 mm OD
Packaged 50 to a case.

ELBOW ADAPTOR
Item Code 1641
- Standard 22 mm ID x 22 mm OD
Packaged 50 to a case.

90 DEGREE ADAPTOR
Item Code 800-01
- 22 mm O.D. x 22 mm I.D.
Packaged 50 to a case.

VENTILATOR ADAPTOR
Item Code 1078
- Right-angle adaptor with a capped suction port
- 15 mm ID x 22 mm OD
Packaged 50 to a case.

PORTED ELBOW ADAPTOR
Item Code 1673
- Standard 22 mm ID/22 mm OD connections
- Accepts most temperature probes
Packaged 50 to a case.

GAS SAMPLING ELBOW
Item Code 1624
- 15 mm OD x 15 mm ID/22 mm OD
- Female luer lock connection swivels 360˚
Packaged 50 to a case.

NORMAN MASK ELBOW
Item Code 1632
- 15 mm OD x 15 mm ID/22 mm OD
- Elbow accepts 5- to 7-mm ID tubing, swivels 360˚
Packaged 50 to a case.

45 DEGREE ADAPTOR
Item Code 800-02
- 22 mm O.D. x 22 mm I.D.
Packaged 50 to a case.

CPAP ELBOW
Item Code 1682
- For use on infant nasal CPAP sets and systems
Packaged 50 to a case.

WYES

UNIVERSAL WYE CONNECTOR
Item Code 1660
- 22-mm OD tubing connections
- 15 mm ID/22 mm OD patient connection
- Airway pressure and temperature monitoring ports
Packaged 50 to a case.

WYE CONNECTOR
Item Code 1661
- Same as Item Code 1660 but without pressure monitoring port
Packaged 50 to a case.

WYE CONNECTOR
Item Code 1662
- Same as Item Code 1660 but without temperature and pressure monitoring ports
Packaged 50 to a case.
ADULT NEAR PARALLEL WYE
Item Code 1674
• 22-mm OD tubing connections
• 15 mm ID/22 mm OD patient connection
• No ports
Packaged 50 to a case.

ADULT NEAR PARALLEL WYE
Item Code 1675
• Temperature monitoring port
• 22-mm OD tubing connections
• 15 mm ID/22 mm OD patient connection
Packaged 50 to a case.

SWIVEL CONNECTORS

SWIVEL OXYGEN TUBING CONNECTORS
The swivel oxygen tubing connectors enhance patient mobility and comfort by minimizing twisting and tangling of oxygen supply tubing connected to a nasal cannula.

• Provide exceptionally smooth, 360° rotation
• Available with optional clip to secure tubing to clothing or bedding

TEMPERATURE MONITORING

THERMOMETER
Item Code 1635
• Clear housing with alcohol-based red liquid column
• Fahrenheit (50°-120°) and Celsius (10°-50°) scales
Packaged 50 to a case.

THERMOMETER WITH TEE ADAPTOR
Item Code 1637
• Combines Item Code 1635 and Item Code 1648
Packaged 50 to a case.

THERMOMETER, THERMOMETER ADAPTOR
Item Code 1647
• Combines Item Code 1635 and Item Code 1645
Packaged 50 to a case.

AQUAPAK® 37 IN-LINE TEMPERATURE INDICATOR (°C)
Item Code 390-45
• 22 mm ID x 22 mm OD connections
Packaged 50 to a case.
## ONE-WAY VALVES

TEES

AEROSOL TEE CONNECTOR
Item Code 1648
- 22 mm OD x 15 mm ID/22 mm OD x 22 mm OD
Packaged 50 to a case.

AEROSOL TEE CONNECTOR
Item Code 1077
- Anti-spill design minimizes aspiration of liquids
- 22 mm OD x 15 mm ID/22 mm OD x 22 mm OD
Packaged 50 to a case.

NEBULIZER TEE CONNECTOR
Item Code 1638
- 22 mm OD x 18 mm ID/22 mm OD x 22 mm ID
- Port accepts most small volume nebulizers
Packaged 50 to a case.

NEBULIZER TEE CONNECTOR
Item Code 1639
- 22 mm OD x 18 mm ID x 22 mm OD
- Port accepts most small-volume nebulizers
Packaged 50 to a case.

VALVED TEES

VALVED NEBTEE
Item Code 1743
- 22 mm OD x 18 mm ID x 22 mm ID connections
- Tee may be left in line when nebulizer is removed
- Port accepts most small-volume nebulizers
Packaged 30 to a case.

VALVED NEBTEE
Item Code 1744
- 22 mm OD x 18 mm ID x 22 mm OD connections
- Tee may be left in line when nebulizer is removed
- Port accepts most small-volume nebulizers
Packaged 30 to a case.
MDI ADAPTORS

**MDI ADAPTOR**
- Item Code 1659
  - 22 mm OD x 22 mm ID connections for in-line placement in 22-mm tubing
  - Packaged 50 to a case.

**MDI ADAPTOR**
- Item Code 1751
  - 15 mm OD x 15 mm ID connections for in-line placement in 15-mm tubing
  - Packaged 50 to a case.

**DUAL SPRAY MDI ADAPTOR**
- Item Code 1759
  - Bidirectional nozzle creates a chamber effect
  - 22 mm OD x 22 mm ID connections
  - Extended universal port
  - Dual-spray nozzle directs plumes in both directions simultaneously
  - Tethered cap
  - Packaged 50 to a case.

NEONATAL ADAPTORS

**NEONATAL PROBE ADAPTOR**
- Item Code 1763
  - Standard 10-mm OD connections
  - Accepts most probes and thermometers
  - Packaged 50 to a case.

**DRIVE LINE ADAPTOR**
- Item Code 1402
  - 0.152-in OD connection
  - 0.092-in ID connection
  - Packaged 100 to a case.

**NEONATAL ADAPTOR KIT**
- Item Code 1792
  - Includes 18-mm nebulizer adaptor; neonatal tee; and 12-in, 10-mm corrugated tubing
  - Packaged 50 to a case.

**NEONATAL ADAPTOR**
- Item Code 1764
  - 10 mm OD x 7.5 mm OD
  - For connecting 10-mm ID and 7.5-mm ID orifices
  - Packaged 100 to a case.

**NEONATAL PRESSURE LINE TEE**
- Item Code 1766
  - For connecting 1/8-in ID tubing to 3/16-in pressure line
  - Packaged 100 to a case.

**NEONATAL PRESSURE LINE TEE**
- Item Code 1765
  - For connecting 1/8-in ID tubing to 1/8-in pressure line
  - Packaged 100 to a case.

CONCHATHERM® ADAPTOR

**CONCHATHERM TUBING ADAPTOR**
- Item Code 384-00
  - Tapered fitting up to 7 mm
  - 15.5 mm ID/19 mm OD
  - Designed to be used with Concha® heated humidifier
  - Packaged 30 to a case.

**CONCHATHERM HOSE ADAPTOR**
- Item Code 384-10
  - 5/16-in barbed fitting
  - 15.5 mm ID/19 mm OD
  - Designed to be used with Concha heated humidifier
  - Packaged 30 to a case.
CONCHATHERM® OXYGEN DILUTER
Item Code 384-26
- Adjustable 26% to 90%
- When used with Concha® humidifier, allows delivery of heated humidity at specific oxygen concentrations
Packaged 30 to a case.

CONCHATHERM NEBULIZER ADAPTOR
Item Code 388-28
- Adjustable 28% to 90%
- When used with Concha humidifier, allows delivery of heated aerosol at specific oxygen concentrations
Packaged 30 to a case.

MISCELLANEOUS

PRESSURE LINE KIT
Item Code 5614
- 7-ft pressure line with luer-lock connectors
- Standard 22 mm ID x 22 mm OD adaptor
Packaged 50 to a case.

VENTILATOR MONITORING ADAPTOR CIRCUIT
Item Code 1667
- Allows monitoring of ventilator weaning parameters in intubated patients
Packaged 50 to a case.

TRACHE TEE OXYGENATOR
Item Code 1668
- Allows administration of oxygen to endotracheal or tracheostomy tubes
- Includes oxygen nipple adaptor, aerosol tee and 6-in Corr-A-Flex® tube
Packaged 50 to a case.

MOUTHPIECE
Item Code 1565
- Standard mouthpiece with 15 mm/22 mm OD connection
Packaged 50 to a case.

EXHALATION VALVE
Item Code 1643
- Includes drive line and hanger
Packaged 50 to a case.
DRAINAGE SYSTEMS

AEROSOL DRAINAGE SYSTEM
Item Code 1740
- Disposable drainage bag with tee adaptor accepts standard 22-mm ID corrugated tubing
- 750-cc bag capacity
- Self-locking plastic chain secures bag to a stable object
- Convenient drainage port
Individually packed, 50 to a case.

AEROSOL DRAINAGE SYSTEM
Item Code 1742
- Disposable drainage bag with wye adaptor accepts standard 22-mm ID corrugated tubing
- 750-cc bag capacity
- Self-locking plastic chain secures bag to a stable object
- Convenient drainage port
Individually packed, 50 to a case.

CYLINDERS/WRENCHES

SMALL CYLINDER WRENCH
Item Code 5080
- Made of die cast zinc
- Sold individually

LARGE CYLINDER WRENCH
Item Code 5082
- For larger cylinder regulators
- Made of rugged, anodized aluminum
- Sold individually

SMALL NYLON WRENCH
Item Code 5083
- Made of tough, stress-resistant nylon
- Sold individually
